

Pathways to Resilience: EMPOWERING VICTIMS OF CRIME

DATE: TUESDAY, SEPTEMBER 10TH

TIME: 10 A.M.-11:15 A.M. EST

LOCATION: ONLINE

Description: This mental health trauma training equips professionals with vital knowledge, skills, and tools to adeptly *navigate the complexities of trauma stemming from direct and indirect exposure to crime*. The program delves into understanding the psychological ramifications of crime on victims, identifying trauma symptoms like PTSD and anxiety, honing effective communication to foster trust, and providing tailored, trauma-informed care prioritizing safety and empowerment.

Learning Objectives:

- **Understanding Trauma:** Participants will gain a comprehensive understanding of the psychological impact of crime on victims, including the various forms of trauma they may experience.
- **Identifying Symptoms:** Participants will develop the ability to recognize signs and symptoms of trauma-related mental health issues in victims of crime, such as Post Traumatic Stress Disorders, Anxiety Disorders, and Depression.
- **Effective Communication:** Participants will learn to enhance communication skills to establish rapport, provide support, and facilitate trust-building with victims of crime in a mental health context.
- **Trauma-Informed Care:** Participants will acquire knowledge and skills in providing trauma-informed care and interventions tailored to the unique needs of crime victims, while prioritizing safety, trust, and empowerment.
- **Empowerment and Resilience:** Participants will learn how to facilitate empowerment and resilience in victims of crime by promoting coping strategies, self-care techniques, and resources for healing and recovery.
- **Cultural Sensitivity:** Participants will develop cultural competence and sensitivity to address the diverse backgrounds and experiences of crime victims, recognizing the impact of cultural factors on their mental health and help-seeking behaviors.
